REMARKS

## SOURCE

1. The above referred reports on the GROSSENHAIN (N 52/A 01) airfield, which had been transmitted by radio, has been confirmed by written statements. The following supplementary information was received:

- a. Two new runways are under construction at the airfield (see Annex).
- b. A fuel dump on the northern field border is being enlarged (see Annex).
- c. The field barracks are occupied by army and air force units totalling about five thousand men. The army soldiers wore uniforms with red-bordered, black epaulets.
- d. The hangars were closed so that the aircraft parked inside could not be observed.
- e. Flying was done exclusively with U-2s.

  Comment:

2. Other sources previously reported that construction work was done at the landing field of the GROSSENHAIN airfield (see references). It was also stated that the landing field was being expanded and new runways were to be built. The location of these runways is reported for the first time and requires confirmation  

b. The reported   which were previously observed in GROSSENHAIN prove the credibility of source.
